4. Instructions for Consumption and Serving Suggestions

☒ **Meat / Vegetable**	**For Steam Oven:** 1. Cover plate with plastic wrap or a cover and thaw product slowly under refrigerated conditions (4°C), This can be done overnight or 3 hours prior to heating. 2. Place the plate on steamer racks and oven on "steam" setting. 3. Heat Product through for 8-10 min or until it the core temp is >75°C. 4. Remove plastic wrap or cover before serving. 5. Serve with gravy/sauce and mashed potato/starch accompaniment.
☒	**For Dry Heat e.g. Burlodge:** 1. Using a spray bottle filled with water, spray the plate with 1-3 sprays of water. 2. Cover the plate with suitable oven-proof wrap or a cover. Keep product frozen until heating. 3. Place the covered plate in the oven or Burlodge tray system. 4. Heat Product through or until it the core temp is >75°C. Each heating system will vary. 5. Remove wrap or cover before serving. 6. Serve with gravy/sauce and mashed potato/starch accompaniment.
☒	**For Home Microwave, plated and covered with glad wrap:** 1. Cover plate with plastic wrap or a cover and thaw product slowly under refrigerated conditions (4°C), This can be done overnight or 3 hours prior to heating. 2. Place a glass of water in the microwave with the plate. 3. Heat on high for 1 min 30 secs or until the product is heated right through. Each microwave will vary. 4. Remove wrap or cover before serving. 5. Serve with gravy/sauce and mashed potato/starch accompaniment.
☒	**Home user/ Main Meal Pre-plated Meal** Plate Frozen Products And Cover With Cling Wrap/cover. No need to unwrap pre-plated meal. Defrost Approx. 4 Hours Or In The Fridge Overnight. COMMERCIAL: Preset Oven To Steam For 5 Minutes. Place The Covered Plate In The Oven. Heat Through For 9-11 Minutes. Remove The Plate From The Oven. Carefully Remove Cling Wrap/cover As Steam Can Burn. Add Sauce/gravy And Serve. MICROWAVE: Place A Cup Of Water In The Microwave. Heat The Covered Thawed Meal For 1-3 Minutes On High (heating Time Will Vary With

	Microwaves). Remove The Plate From The Microwave And Remove The Cling Wrap/cover To Avoid Burning. Add Sauce/gravy And Serve. Enjoy!
☐	**Meals on Wheels Container** 1. Thaw in the fridge (best done overnight). 2. Place the meal in the microwave, covered. Heat for 3 ½ to 4 minutes on high. 3. Alternatively, remove the frozen meal from the package, place it on your plate and cover it with microwave-safe plastic wrap. Heat for 2 ½ minutes on high with a glass of water placed in the microwave to create steam. 4. Each microwave is different, so check that the meal is piping hot and heated right through. 5. Use oven gloves to remove the container or plate from the microwave. 6. Carefully remove the lid or plastic wrap, as the steam is hot. Enjoy your meal. 7. Note: Heating from a thawed meal provides the best results.
☐	**Sauce (individually packaged)** 1. Sauce can be heated from frozen. 2. Place a cup of water in the microwave with the sauce. This provides additional moisture and steam. 3. Place the sauce package in the microwave and heat on high for 2 ½ minutes. 4. Open the sauce package carefully and pour over the meal.
☐ **Biscuits / Cakes/ Fruit**	Remove from packaging. Place frozen items on the serving plate. 1. Cover the plate with plastic wrap or a cover and thaw the product slowly under refrigerated conditions (4°C), This can be done overnight or 1-3 hours before serving. Biscuits will take a shorter time to thaw compared to the cakes. 2. Garnish with cream, yoghurt, custard, ice cream.

5. Microbiological Criteria Random Monthly Testing includes:

Std Plate Count <1,000,000cfu/g	Coagulase Positive Staphylococci <100cfu/g	Coliforms <100cfu/g	Escherichia Coli <3MPN/g
Clostridium Perfringens (wet) <100cfu/g (Poultry Products Only)	Bacillus cereus <100cfu/g (Starch Products Only)	Listeria Not detected per 25/g	Salmonella Not detected per 25/g
